ATTENTION David Harding

I am a resident of 114 North Coast Road at Point Turton and a residents group is negotiating to have a sea Wall built in front of properties along here. A number of the residents are attempting to secure a loan from the Council for funding to do this. Although I am NOT one of those wishing to obtain a loan against my rates I am in favour of the wall going ahead and wish to notify the Council of this.

Regards Susan Sherriff

Re: Pt Turton Seawall

We are aware of a future call on Local Government funds for a Loan with Rate Levy payback to assist in funding construction of the Sea Wall along our beach frontage and fully support its construction along with any Council facilitated assistance that may be available to those affected.

Best Regards

Sharon Weidenbach and Craig Drogemuller
