**HILLSIDE MINE COMMUNITY VOICE
LOCAL ENGAGEMENT –
HILLGROVE EXPERIENCES**

STEVEN MCCLARE IIIII **CEO & MANAGING DIRECTOR**

4 JUNE 2018

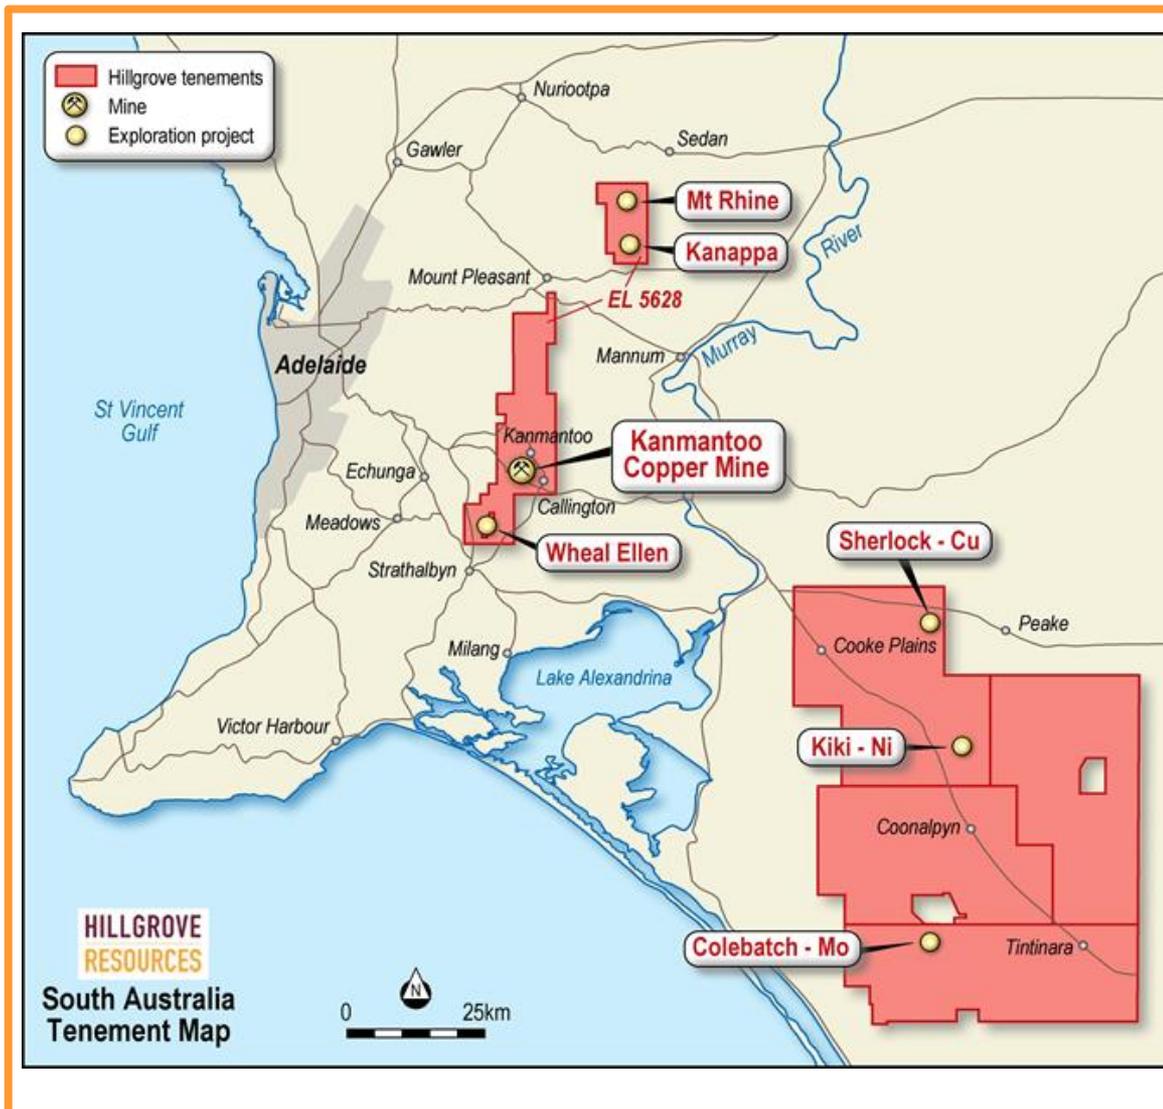

■ Local Engagement

- Relationship is on a unique path
- From exploration to closure
- Evolving and developing
- Challenge for all parties
 - Community
 - Company
 - Local & State Government
- An extremely interesting model

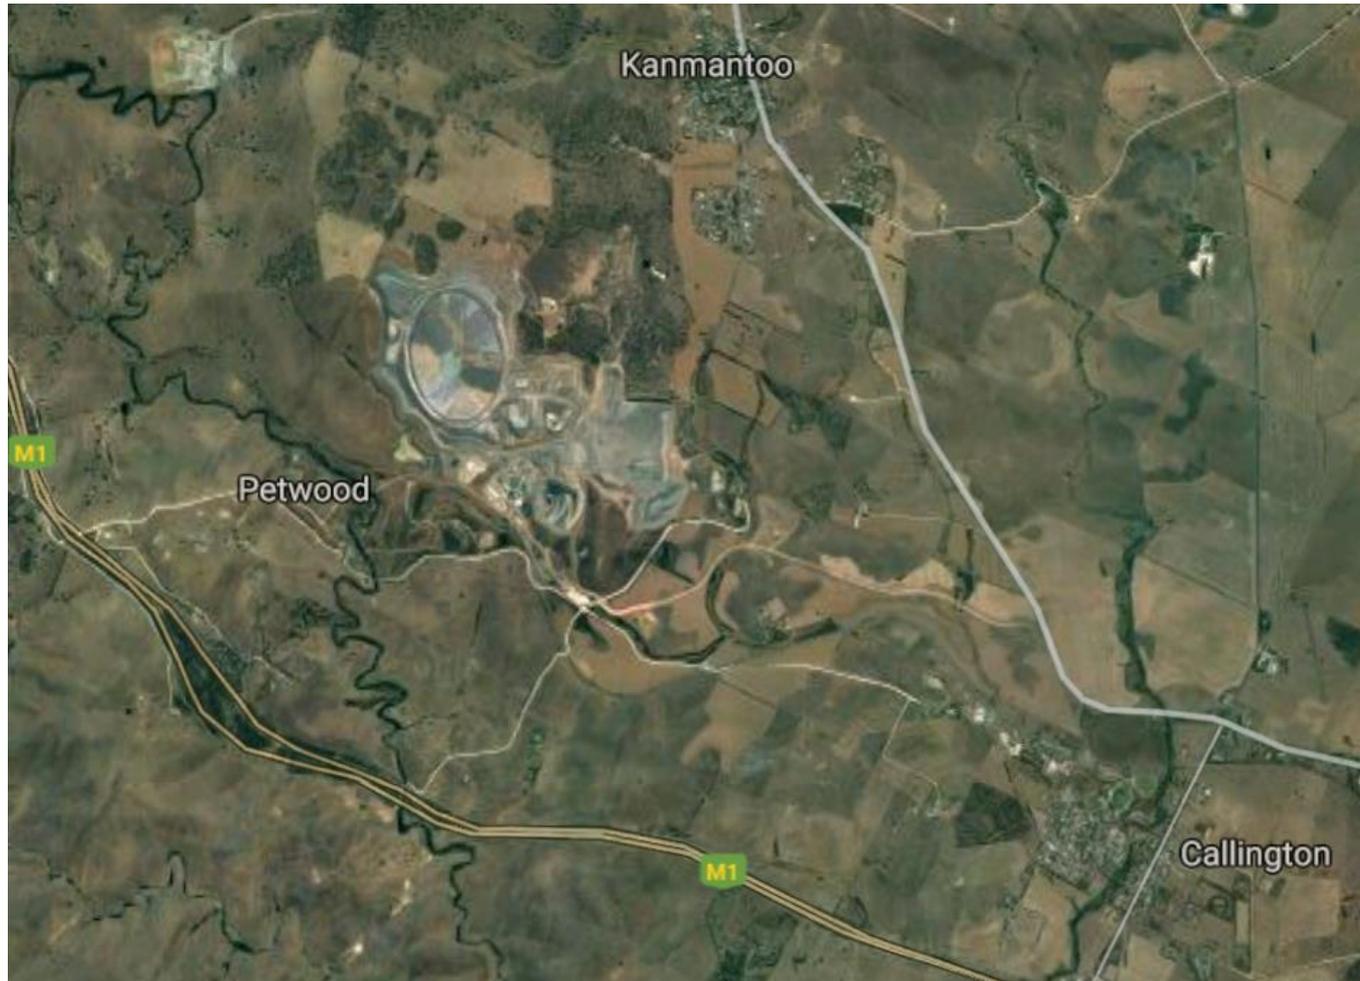

Hillgrove Resources Limited (ASX: HGO) has several copper-gold projects that have the potential to provide significant organic growth in South Australia

- Kanmantoo Copper Mine
 - 3rd cutback of Pit
 - Underground potential
- Exploration
 - Around Mine
 - Kanappa
 - Mt Rhine
 - Coonalpyn district
- Pumped Hydro Concept

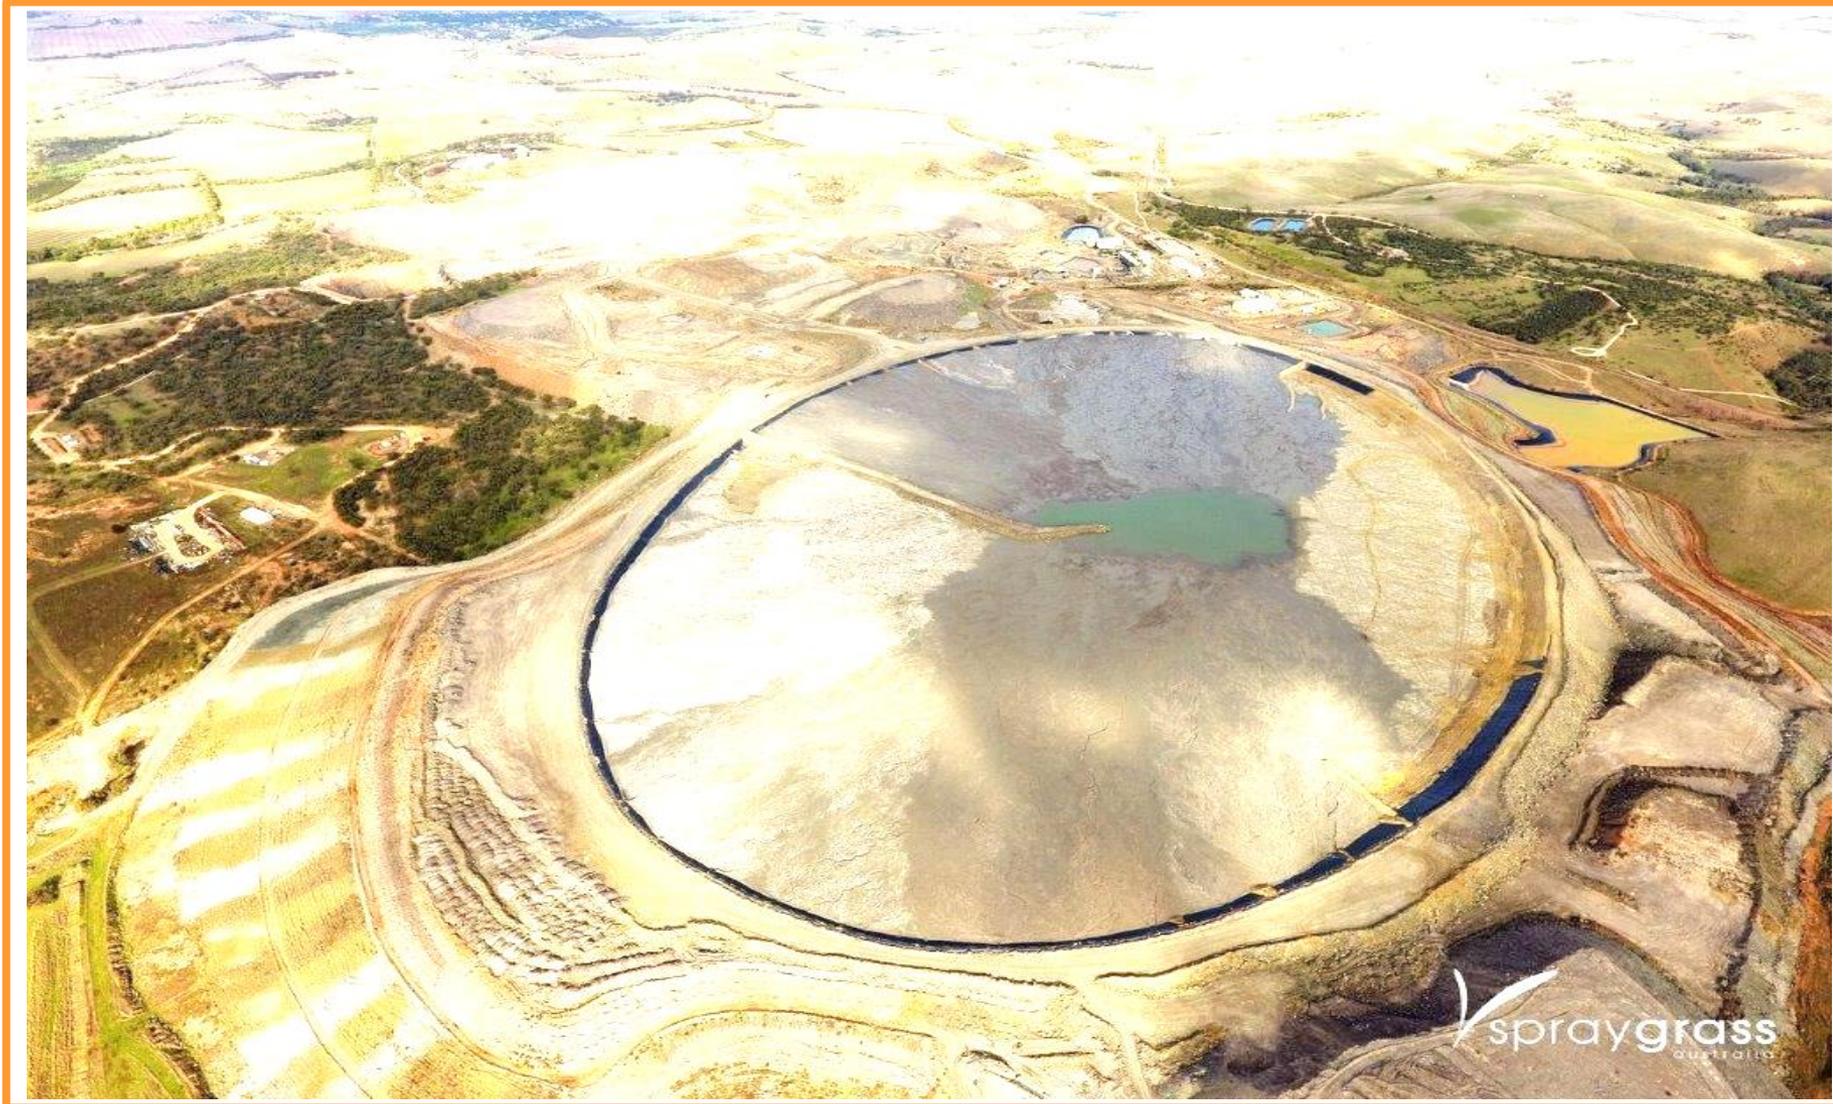

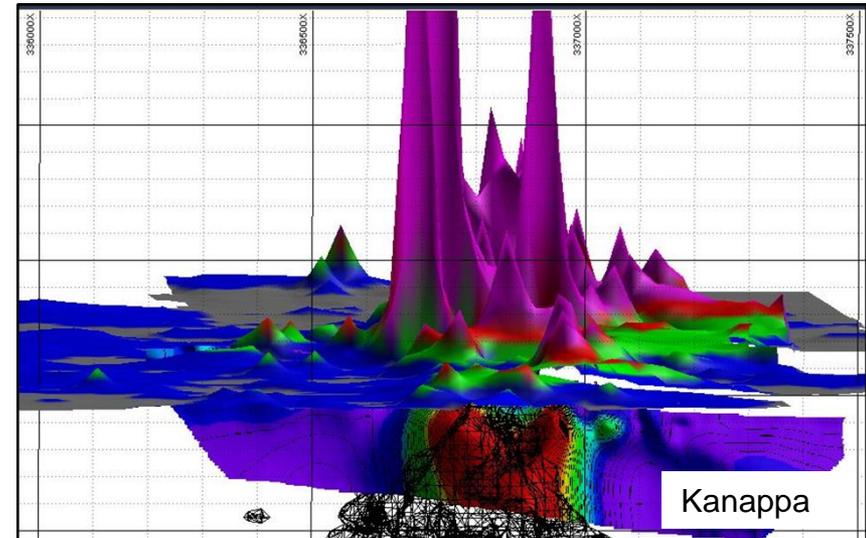

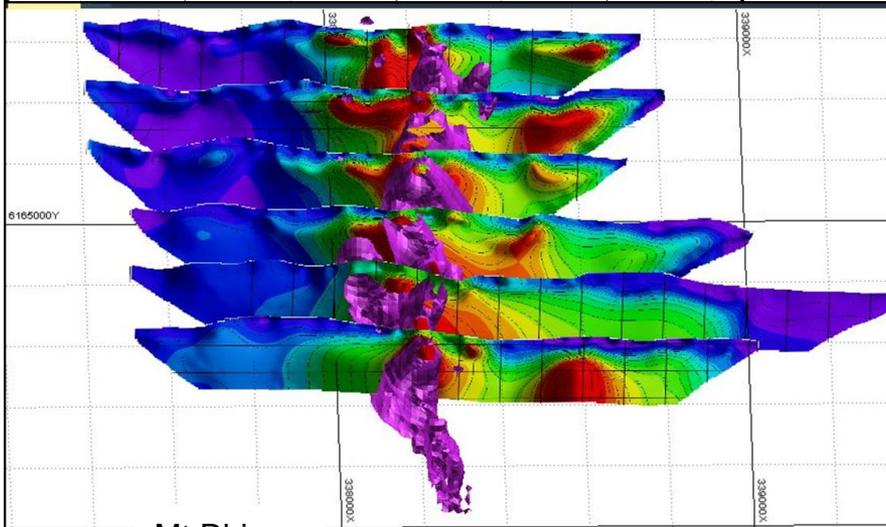

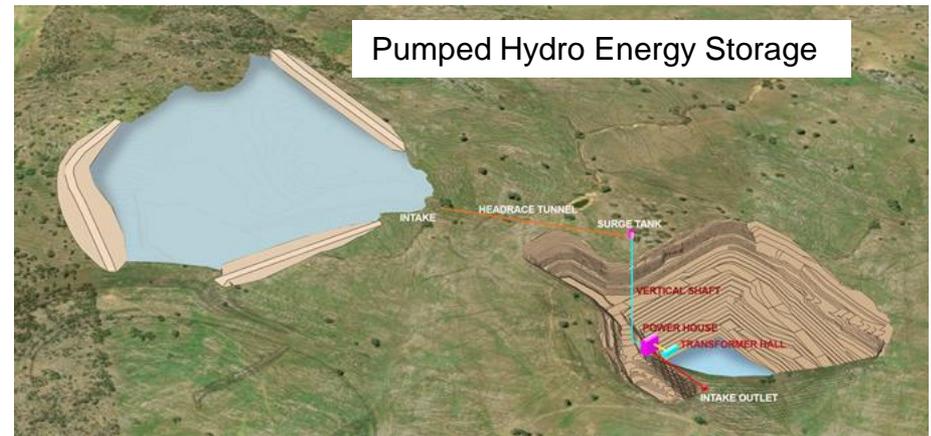

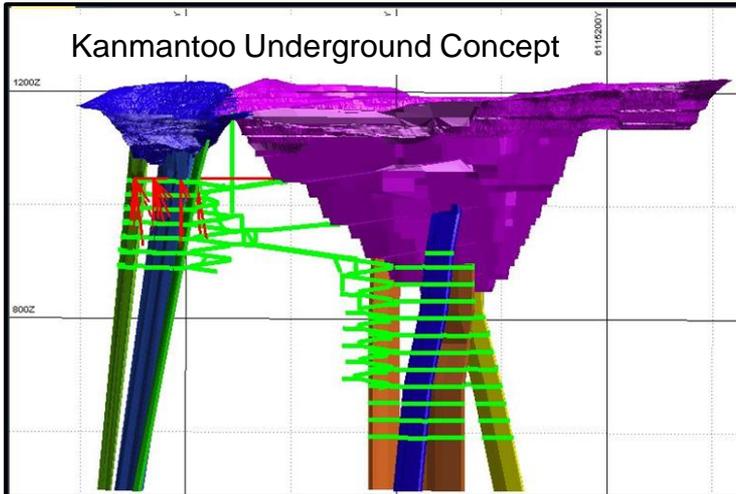

Kanmantoo Copper Mine has two nearby towns in close proximity

■ Kanmantoo Callington Community

- Proud rural community
- Involved with Hillgrove in mid 2000 during exploration
- Formally established Kanmantoo Callington Community Consultative Committee in 2007
 - Community Based Forum
 - Formal Terms of Reference
 - » Minimise impact
 - » Maximise opportunities

- Active community working with the Mine to have a Master Plan for the District
- Planning includes rehabilitation, growth concepts and post closure optionality

■ **Closing the gap at commencement**

- Differences in expectations
- Closing the experimental gap
- Being the best neighbour we can be
- Mutual listening
- What can be done = ACTIONS
- Responsive management

Kanmantoo Callington Community Consultative Committee (KCCCC)
with Hillgrove Resources Limited and the Kanmantoo Copper Mine

Note from the Chair of the KCCCC

This Information Sheet has been put together by the Kanmantoo Callington Community Consultative Committee (KCCCC) from information given to it by Hillgrove Resources Limited and from observations made by the Dust Working Party as part of their role in 'assisting all stakeholders and the community to gain a comprehensive understanding of the mine's operations, rehabilitation, decommissioning and mine closure plans' (KCCCC Terms of Reference July 2014).

The information will be added to as new initiatives are developed at the mine.

Bob Gofeing Independent Chair KCCCC April 2015

■ Progressive Rehabilitation

- Class leading progressive rehabilitation
- Forms a strong and enduring basis of what can be done
- Ground up approach – understory then canopy

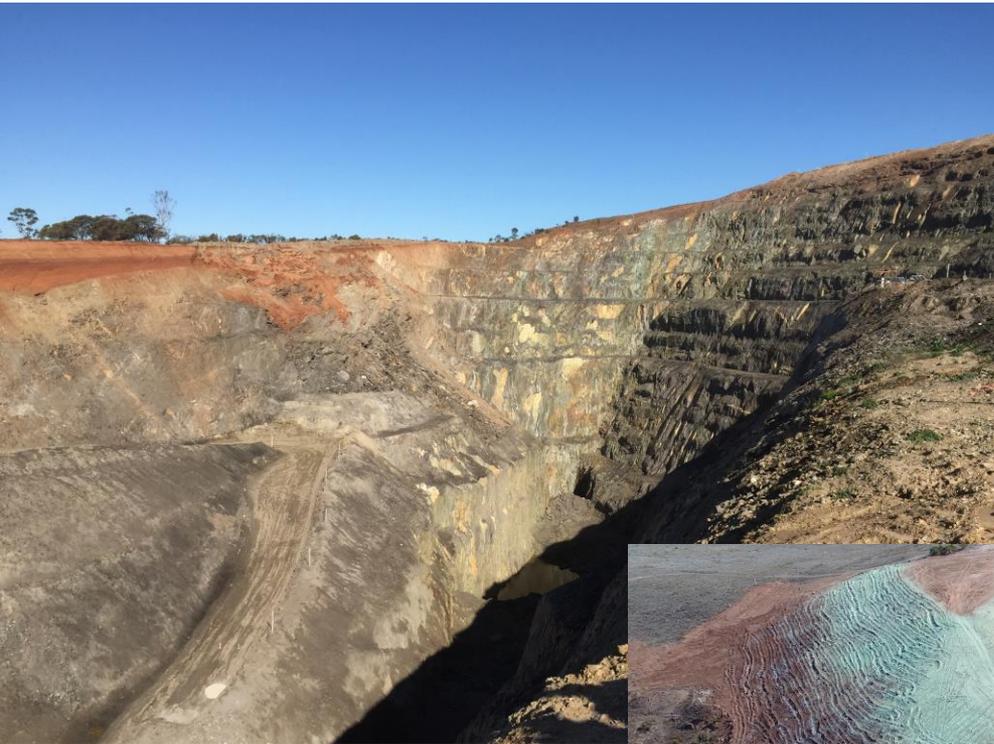

- Nugent Pit mined in 2015/16
- Backfilled 2016
- Rehabilitation commenced 2017

- **Master planning intent - sustainable prosperity**
 - Sustainable conservation
 - Utilisation of natural resources and infrastructure
 - Viable, profitable and sustainable business transition
 - Healthy rural lifestyle
 - Planning connected to the region
 - Community sport and recreation

■ Master plan evolving

- Geographic information system mapping being used as a template for translation
- Involvement of local and international universities
- Timing is of the essence and presents a challenge for
 - Community
 - Company
 - Regulators
- Link to regional and State Planning

■ **Local Engagement Conclusion**

- A unique path being chartered
- From exploration to closure
- Evolving and developing
- Challenge being met by all parties
 - Community
 - Company
 - Local & State Government
- An extremely interesting model

No representation or warranty is or will be made by any person (including Hillgrove Resources Limited ACN 004 297 116 (“Hillgrove”, “HGO”, or the “Company”) and its officers, directors, employees, advisers and agents) in relation to the accuracy or completeness of all or part of this document (the “Document”), or the accuracy, likelihood of achievement or reasonableness of any forecasts, prospects or returns contained in, or implied by, this Document or any part of it. This Document includes information derived from third party sources that has not been independently verified.

This Document contains certain forward-looking statements with respect to the financial condition, results of operations and business of Hillgrove and certain plans and objectives of the management of Hillgrove. Forward-looking statements can generally be identified by the use of words such as ‘project’, ‘foresee’, ‘plan’, ‘expect’, ‘aim’, ‘intend’, ‘anticipate’, ‘believe’, ‘estimate’, ‘may’, ‘should’, ‘will’ or similar expressions. Indications of, and guidance on, production targets, targeted output, mine development or timelines, exploration or expansion timelines, infrastructure alternatives and financial position and performance are also forward-looking statements. Any forecast or other forward-looking statement contained in this Document involves known and unknown risks and uncertainties and may involve significant elements of subjective judgment and assumptions as to future events which may or may not be correct. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of Hillgrove, and may cause actual results to differ materially from those expressed or implied in such statements. There can be no assurance that actual outcomes will not differ materially from these statements.

Various factors may cause actual results or performance to differ materially. These include without limitation the following: risks specific to Hillgrove’s operations; credit risk; levels of supply and demand and market prices; legislation or regulations throughout the world that affect Hillgrove's business; insurance expenses; the risk of an adverse decision or other outcome relating to governmental investigations; class actions or other claims; growth in costs and expenses; and risk of adverse or unanticipated market, financial or political developments (including without limitation in relation to commodity markets).

You are cautioned not to place undue reliance on forward-looking statements. These forward-looking statements are based on information available to us as of the date of this Document. Except as required by law or regulation (including the ASX Listing Rules) we undertake no obligation to update these forward-looking statements.

This Document is provided for informational purposes only and is subject to change without notice. Subject to any obligations under applicable laws, regulations or securities exchange listing rules, Hillgrove disclaims any obligation or undertaking to release any updates or revisions to this Document to reflect any change in expectations or assumptions. Nothing in this Document should be interpreted to mean that future earnings per share of Hillgrove will necessarily match or exceed its historical published earnings per share, or that there has been no change in the affairs of Hillgrove since the date of this Document.

Nothing contained in this Document constitutes investment, legal, tax or other advice. The information in this Document does not take into account the investment objectives, financial situation or particular needs of any recipient. Before making an investment decision, each recipient of this Document should make its own assessment and take independent professional advice in relation to this Document and any action taken on the basis of this Document.

All currency referred to is Australian dollars (\$) unless otherwise indicated (e.g. US\$).

ABOUT HILLGROVE

Hillgrove is an Australian mining company listed on the Australian Securities Exchange (ASX: HGO) focused on the operation of the Kanmantoo Copper Mine in South Australia, and with exploration projects on its Indonesian tenements. The Kanmantoo Copper Mine is located less than 55km from Adelaide in South Australia.

Competent Person's Statement

The information in this release that relates to the 2016 Mineral Resource for Giant is based upon information compiled by Mr Peter Rolley, who is a Member of The Australian Institute of Geoscientists. Mr Rolley is a full-time employee of Hillgrove Resources Limited and has sufficient experience relevant to the styles of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code)'. Mr Rolley has consented to the inclusion in the release of the matters based on their information in the form and context in which it appears.

The information in this release that relates to the 2013 Mineral Resource not including Giant is based upon information compiled by Ms Michaela Wright, who is a Member of The Australasian Institute of Mining and Metallurgy. Ms Wright is a full-time employee of Hillgrove Resources Limited and has sufficient experience relevant to the styles of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code)'. Ms Wright has consented to the inclusion in the release of the matters based on their information in the form and context in which it appears.

The information in this release that relates to Ore Reserves is based upon information compiled by Mr Steven McClare, who is a Member of The Australasian Institute of Mining and Metallurgy. Mr McClare is a full-time employee of Hillgrove Resources Limited and has sufficient experience relevant to the styles of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code)'. Mr McClare has consented to the inclusion in the release of the matters based on their information in the form and context in which it appears.

The information in this release that relates to Exploration Results is based on information compiled by Dr David Rawlings, who is a Member of The Australasian Institute of Mining and Metallurgy. Dr Rawlings consults independently as the Kanmantoo Project Exploration Manager for Hillgrove Resources Limited and has sufficient relevant experience to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code)'. Dr Rawlings consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
